

What we've learned from decades of deployment with America's greatest fighting forces, we've put back into our technology for the Trijicon Credo<sup>®</sup> tactical riflescope. It delivers an incredibly clear sight picture, green or red illuminated reticles, superior target acquisition, and rugged durability.

- 1 Red or green illuminated reticles for any-light aiming
- 2 First or second focal plane models available
- 3 Designed and tested to Military Standards
- 4 Exposed windage / elevation adjusters with zero stop for easy zeroing
- 5 Tactical design optimized for use in extreme conditions

## The Science of Brilliant<sup>®</sup>

At Trijicon, we are bound by a commitment to industry-leading research, design, and testing to seek innovative aiming solutions that constantly redefine "brilliant." That's why every Trijicon riflescope design is tested to the procedures below.

➤ **Alaska-to-Africa Temperature Tested**

To ensure each family of riflescopes is ready for whatever our users put them through, we perform an "Alaska-to-Africa" temperature shock test with temps from -20°F to 140°F.

➤ **Immersion Tested**

All models are immersion tested, and every riflescope is dry-nitrogen filled to eliminate internal fogging.

➤ **Solid Zero Tested**

Our riflescopes are designed to hold their zero giving you the precision you need. Every model is subjected to 5,000 consecutive rounds, confirming no reticle shift has occurred.

➤ **Shock & Vibration Tested**

All riflescope models are tested to withstand recoil and vibrational stresses without malfunction, so it can take a beating before, during, and after use.

➤ **Drop Tested**

Because we don't believe every drop should be followed by a warranty claim, we drop test each riflescope design to check for durability.

# Features and Benefits

- A Easy-Focus Eyepiece**  
Diopter accommodates the shooter's individual prescription.
- B Repositionable Magnification Lever\***  
Accommodates different shooting positions and rifle configurations.
- C Confident Aiming in Any Light**  
User-selectable LED brightness settings with an "off" in between each setting to adapt to any environment.
- D Quick & Easy Adjustments**  
Crisp, precise, windage / elevation adjusters require no tools and are designed to prevent accidental shift.
- E Purpose-Driven Design**  
Matte finish and easy-grip controls for fast, intuitive adjustments.
- F Ultra Durable for Ensured Reliability**  
Ruggedized design engineered to withstand extreme conditions and tested to military standards and protocols.

\* on most models

- G Edge-to-Edge Clarity**  
Fully multi-coated broadband anti-reflective glass provides excellent light transmission, true detail and color with zero distortion on most models.
- H Both-Eyes-Open Shooting**  
Illuminated reticles provide a clear aiming point that draws the shooter's eye for fast engagement.
- I Rapid Target Acquisition**  
Choose from a variety of specially engineered reticle designs for fast ranging and holdovers.
- J Fast Scanning, Detection, and Tracking**  
Extra-Wide field of view for maximum situational awareness.
